

British Association of Independent Schools with International Students

Meeting the needs of international students in the mainstream classroom – a practical guide for teachers.

Building on more than 20 years' experience of providing Continuous Professional Development to EAL teachers and teachers of other curriculum subjects to non-native speakers, the British Association of Independent Schools with International Students is delighted to offer a certificated two-day course for new and experienced teachers. The perfect course for teaching staff at, or about to join, schools with international students, it comprises the following five modules:

- 1) **EAL Overview** | Identifying the needs of international students and understanding potential barriers to learning.
- 2) **EAL Practical Strategies** | Exploring practical strategies and techniques for effective learning in the mainstream classroom.
- 3) **Integrated approach** | Exploring the benefits of a whole-school approach to learning for international students.
- 4) **STEM** | Examining a Content and Language integrated approach to learning in STEM subjects.
- 5) **Humanities** | Examining a Content and Language integrated approach to learning in Humanities subjects.
